

PERFORMANCE TEST CASES

PERF-001: Page Load Time

Priority: P1 - High

Page	Maximum Acceptable Load Time	Actual Load Time	Status
Login Page	3 seconds	2.1 seconds	☒ Pass ☐ Fail
Dashboard (Student)	3 seconds	2.2 seconds	☒ Pass ☐ Fail
Dashboard (Organization)	3 seconds	2.2 seconds	☒ Pass ☐ Fail
Dashboard (Admin)	3 seconds	2.2 seconds	☒ Pass ☐ Fail
Equipment Catalog (10-20 items)	3 seconds	2.2 seconds	☒ Pass ☐ Fail
Facility Catalog (5 items)	3 seconds	2.2 seconds	☒ Pass ☐ Fail
Equipment Inventory	4 seconds	2.3 seconds	☒ Pass ☐ Fail
Request History	3 seconds	2.3 seconds	☒ Pass ☐ Fail
Reports Page	4 seconds	2.2 seconds	☒ Pass ☐ Fail

Testing Tool: Chrome DevTools Network Tab or Lighthouse

PERF-002: Concurrent User Load

Priority: P2 - Medium

Number of Users	Action	Expected Result	Actual Result	Status
9	Simultaneous login	All successful, <5 sec	All users logged in successfully in less than 5 seconds	☒ Pass ☐ Fail
6	Browse equipment catalog	All load successfully	All loaded successfully	☒ Pass ☐ Fail
6	Submit requests simultaneously	All submitted or queued	All requests submitted successfully	☒ Pass ☐ Fail
9	Access dashboard	Load with no errors and acceptable performance	The dashboard loaded with no errors and acceptable performance	☒ Pass ☐ Fail

Testing Tool: JMeter or manual with multiple browsers

PERF-003: Image Loading Performance

Priority: P2 - Medium: each image is optimized and under 500KB

Scenario	Expected Result	Actual Result	Status
Equipment catalog with 20 images	All images load within 5 seconds	All images loaded within 5 seconds	☒ Pass ☐ Fail
Images are optimized (not 5MB each)	Yes, <5MB per image	Yes, the images were optimized and did not exceed 5 MB per image	☒ Pass ☐ Fail
Placeholder shows while loading	Yes	Yes, each image showed a placeholder until it fully loaded	☒ Pass ☐ Fail
Broken image doesn't break layout	Placeholder displayed	Placeholder displayed	☒ Pass ☐ Fail
